

Dear Families,

We'd love to introduce you to Bookshare, an online library of over 1.3 million ebooks that can be adapted to help your student read! Kids can enjoy books in audio format, audio with highlighted text, or they can change the text to be different sizes, colors, or Braille. Bookshare also has ebooks in Spanish and many other languages. You can use the Bookshare Reader app on computers, tablets, smartphones, and Alexa-enabled smart speakers.

All you need to do to get a **FREE Bookshare account** for your child is to register at [Bookshare.org/sign-up](https://www.bookshare.org/sign-up). It will prompt you to fill out an online form about your child's reading challenges.

Your child's teacher will be sending home a signed proof of disability form to help you sign up. If you don't see it, be sure to ask!

Sincerely,
